

DIAGNOSTIC ORDERS AT CMBC (MHS)

When placing breast imaging orders, you will see two options now in your Facility Preference List:

- » (MHS) will route to MHS to perform exam
- » (CMBC) will route to CMBC to perform exam

The screenshot shows a patient's medical record interface. The patient is identified as 'Xtsttwocmbc, Multcvg', a 65-year-old female. The 'Plan' section is active, showing 'Medications & Orders' with a 'mammo screening' entry and a '+ New Order' button. A 'Preference List Search' window is open, displaying the search term 'MAMMO SCREENING'. The search results show two options: 'MAM SCREENING BILATERAL (CMBC) (MAMMOGRAM)' and 'MAM SCREENING BILATERAL (MHS) (MAMMOGRAM)'. A blue arrow points to the CMBC option.

Steps: Plan > Meds & Orders

Results from CMBC will continue to go to your In Basket Results folder and the patient's Chart Review Imaging tab:

The screenshot shows the 'My Messages' window in a medical software interface. The 'Results (56)' tab is selected. A table of results is displayed with columns for Status, Patient, and Test. The first row shows a 'Read' result for 'Xtsttwocmbc, Multcvg' with the test 'O MAM SCREENING BILATERAL DIGITAL W/3D TOMO' dated '03/27/2017'. The second row shows a 'New' result for 'Xtsttwo-Cmbc, Tat' with the same test type dated '04/06/2017'.

The screenshot shows the 'Chart Review' window with the 'Imaging' tab selected. A table of imaging orders is displayed with columns for PACS, DOS, Appt Dept, Accession #, and Exam. The table lists several orders from 03/27/2017, including 'O US BREAST BILATERAL COMPLETE', 'O MRI BREAST BILATERAL W/W/O CONTRAST', 'O DEXA BONE DENSITY STUDY', 'O MAM DIAGNOSTIC BILATERAL DIGITAL W/3D TOMO', 'O MAM BREAST NEEDLE LOCALIZATION BILATERAL (CMBC)', 'O MAM SCREENING BILATERAL DIGITAL W/3D TOMO', and 'O MAM BIOPSY BREAST STEREO VAC ASSIST BILAT (CMBC)'.

DX Order Tip: With regard to diagnostic mammogram orders for a lump or breast pain, if appropriate, please include "ultrasound if needed" on order. If this is included in the original order, CMBC won't be required to call your office asking for a new order should an ultrasound be needed.
